Sema4.ai Named a Finalist in The 2026 A.I. Awards

International artificial intelligence awards program announces its finalists.

Atlanta, GA, United States, September 22, 2026 – Sema4.ai, the enterprise AI agent platform company, has been named as a finalist at The 2026 A.I. Awards in the Best AI-powered Workflow Solution category.

Sema4.ai helps enterprises automate their most complex back-office work by making it easier to build, run, and manage autonomous AI agents at scale. Sema4.ai Agents connect to enterprise systems, carry business context across them, and execute multi-step processes end-to-end, from invoice reconciliation to regulatory reporting to supply chain operations.

“Enterprises are moving beyond experimenting with AI and putting agents to work on mission-critical processes,” said Rob Bearden, co-founder and CEO of Sema4.ai. “Our focus is giving organizations the accuracy, transparency and control they need to confidently deploy AI agents across their operations. Being named a finalist for Best AI-powered Workflow Solution recognizes the work our team is doing alongside customers to turn AI into real business outcomes.”

Operated by global cloud computing awards body, The Cloud Awards, The A.I. Awards celebrates international leaders driving the next generation of artificial intelligence and machine learning. Now in its third year, the 2026 program saw entries from organizations worldwide, spanning established technology powerhouses to disruptive startups across North America, Europe, the Middle East, and APAC.

The awards highlight transformative advances across the entire AI ecosystem: from core infrastructure and governance to cutting-edge agentic workflows and AI assistants. Special emphasis is placed on practical implementations that deliver measurable value within dedicated operational units and specific vertical markets.

CEO of The Cloud Awards, James Williams, said: “Unveiling the finalists for the 2026 A.I. Awards is a significant moment. With the sheer volume of entry submissions this year, the competition is fierce, and the quality of work on display is extraordinary.

“We look for genuine real-world execution that turns technological promise into tangible outcomes. Sema4.ai and their fellow finalists have exemplified this.

“Making it to the finals is a remarkable achievement, and we wish everyone the very best as our panel selects the ultimate category winners.”

About the Cloud Awards
The Cloud Awards is an international program which has been recognizing and honoring industry leaders, innovators and organizational transformation in cloud computing since 2011. The Cloud Awards comprises five awards programs, each uniquely celebrating success across cloud computing, software-as-a-service (SaaS), cloud security, artificial intelligence (AI), and financial technologies (FinTech).

Winners are selected by a judging panel of international industry experts. For more information about the Cloud Awards, please visit https://www.cloud-awards.com/.

About Sema4.ai
Sema4.ai provides a comprehensive enterprise AI agent platform that enables organizations to build, run, and manage AI agents at scale. The platform empowers business users to create intelligent agents using natural language, connect agents to enterprise applications and data through pre-built actions and universal connectivity, and manage the full agent lifecycle with enterprise-grade security and governance. Sema4.ai is trusted by leading enterprises to transform business operations through autonomous, intelligent agents that work continuously with transparency, auditability, and control.
